

The Shape Visitor

Puppets and materials - Old woman puppet or scarf around your head to pretend to be old woman, circle shape head, square body, 2 rectangle arms, 2 triangle hands, 2 rectangle legs, 2 oval feet and a rhombus hat.

Once upon a time there lived a lonely old woman. She lived all by herself because she had no family or friends. All day long she would sit at her spinning wheel and spin (show children how to roll arms and chant spin, spin, spin while rolling their arms) Till one day she heard a knock at her door. She said who is it? No one answered. Then all of a sudden 2 oval feet came in tap dancing (tap dance your feet on ground) and sat right on the ground in front of the woman. She asked the oval feet who they were but they just kept dancing. So she kept spinning (children spinning to).

Knock -2 rectangle legs making letters t, v, x, l (same thing happens-she keeps spinning)
Knock - a square body flying like a Frisbee (throw the square like a Frisbee) --- she keeps spinning
Knock - 2 triangle hands clapping---she keeps spinning
Knock - 2 rectangle arms --- she keeps spinning
Knock---a circle head with a rhombus hat.

The old woman asks what is he doing there what does he want. Then the shape person starts to whisper. (Get real quiet) "I am here to (then jump and yell) tickle you while reaching out to tickle the children."

You can say he was a leprechaun sent to bring the old woman to town and give her a family, or an elf sent from Santa or a person from the circus wanting her to join them or whatever you'd like.

The end.
